

# DRILINER

## FEATURES:

The Bannerman DriLine Marker applies powdered line marking materials on GRASS or NON-TURF surfaces. Excellent for ball diamonds.

The large capacity hopper has an adjustable dispensing aperture positioned close to the ground to minimize drift and is equipped with a rain cap to protect the contents from blowing about or getting wet in case of rain.

The width of the marking is adjustable from 1" (26mm) to 4" (102mm).

For extra stability and ease of handling the DriLine Marker is equipped with 4 wheels and pneumatic tires. The front wheels are extra large to ensure a uniform drive for the dispensing mechanism when fully loaded. To cut off the dispensing action you simply raise the wheels so there is no traction.
