

BA-400 MULTI-JECT

CHANGING TINE STYLES IS AS EASY AS 1-2-3

New Tine Reel Assemblies allow for smoother operation, and more holes per square yard.

- Aeration revitalizes and encourages roots to grow deeper by increasing the oxygen supply to the root zone for healthy, dense, green grass.
- Allows drainage of excess surface water.
- Allows entry of fertilizer and organic topdressing.
- Allows entry of moisture in dry spots.
- Conservation of water aeration prior to watering directs water to the root zone.
- Allows air deep into the soil.
- Reduces extreme compaction in soil on high traffic areas.
- Provides seed pockets and soil to cover seeds, for fast germination and better yield of grass seeds.
