

ROLLMAX SOD HARVESTER

SOD HARVESTER

SH2400 RollMax Big Roll Turf Harvester
John Deere 5225 with Syncro-Mesh Transmission

Standard Big Roll Harvester comes with
2WD or 4WD tractor, sod core tube pack,
no-netting attachment.

- 24" floating cutter head for maximum turf quality and efficiency.
- All functions controlled from the tractor seat.
- Automatic rolling.
- Automatic cut-off length adjustable up to 125'.
- Bottom net wrap optional for weak and tender turf conditions.
- Top outer roll net wrap attachment (optional).
- Empty tube dispenser.
- Auto slab kit (optional).
- Ground speed hydraulics to prevent tearing of turf.
- Turf rolls are ejected to the harvested side out of the way of the next pass.
- Hydraulic depth control standard.
- Four 24" wide rolls easily fit across the width of a truck bed.
