

C22HD Professional 50lb/23kg Broadcast Spreader

Description

The C22HD Professional broadcast spreader brings high technology to push spreaders. The C22HD applies grass seed, fertilizer, and all other types of granular lawn and garden products with ease and efficiency. Using the EarthWay design and engineered EV-N-SPRED[®] PRO Dual Port Adjustable Shut-Off System, the user can infinitely balance the spread pattern based on material size, weight, and flight characteristics. Equipped with the EarthWay Twin-Tube chassis; the C22HD has a 250lb/113kg load bearing capacity. The heavy-duty axle support system uses a specially engineered material that creates a smooth bearing surface for the axle, and is maintenance free: no oil, no grease, and no problems. The EarthWay Super-Duty gearbox sets the performance bar so high that no other manufacturer can reach it. From the strength, to the speed, the Super-Duty gearbox is unsurpassed. The C22HD pushes effortlessly over any terrain, even with a full hopper, the solid linkage, 3-position height adjustable ergonomic handle and “T”-Speed lever provide total operator control and comfort. Equipped with a rustproof poly hopper, the C22HD will give years of superior performance, at an affordable price. Add any of the available accessories and the C22HD becomes the premier powder coated 50lb spreader on the market today.

Features

- 50lb/23kg Hopper capacity – rustproof poly construction
- EV-N-SPRED[®] PRO Dual Port Adjustable Shut-Off System
- 250lb/113kg Load bearing capacity - what the frame will support
