

C25HDS Stainless Steel Professional Tow Broadcast Spreader

Description

The C25HDS Professional Stainless Steel broadcast spreader brings high technology spreading to tow spreaders. The C25HDS applies grass seed, fertilizer, and all other types of granular lawn and garden products with ease and efficiency. The EV-N-SPRED® PRO Dual Port Adjustable Shut-Off System allows the user to control the balancing of the spread pattern on both the left and right side throwing port to equal the center. This technology makes balancing the spread pattern based on different materials fast and easy. The C25HDS has a stainless steel chassis with a 250lb/113kg load bearing capacity. The heavy-duty axle support system uses a specially engineered material that creates a smooth bearing surface for the axle, and is maintenance free: no oil, no grease, and no problems. The EarthWay Super-Duty gearbox combines strength, durability and speed, making the Super-Duty gearbox unbeatable. The C25HDS tows effortlessly over any terrain, even with a full hopper, the solid linkage, nine position height adjustable hitch and easy reach "T"-Speed lever provide total operator control and comfort. Equipped with a rustproof poly hopper, the C25HDS will give years of superior performance, at an affordable price.

Features

- 100b/45kg Hopper capacity - rustproof poly construction
- EV-N-SPRED® PRO Dual Port Adjustable Shut-Off System
- 250lb/113kg Load bearing capacity - what the frame will support
- 13"/33cm diameter turf tires on rust-proof poly rims
- Stainless Steel Professional chassis
- Super-duty gearbox for long life
- 9-position Height adjustable hitch - adapts to all types of garden tractors
- *Optional* Rain cover - #77002
- **5-Year Limited Warranty**
- Lifetime tech support
