The ultimate in edging versatility: The Edge-R-Rite II tackles a wider variety of on-site edging and cutting jobs with one machine. It can also eliminate hours of manual labor when edging cart paths, walkways, or landscaping.

Oscillating blade action makes the Edge-R-Rite II unique when compared to traditional rotary edgers. The Edge-R-Rite cuts without throwing debris, so cleanup is easier and operation of the machine is safer in high-traffic areas. Plus, Edger-R- Rite blades are highly durable, easy to replace and offer a wide variety of options. Commercial-duty durability is built into every Edge-R-Rite II, with features including a solid steel frame, Honda® 4-horsepower engine, heavy-duty cutting arm and large sealed bearings.

- Increase tire life with drive casting and interchangeable tires.
- Greaseless bearing, heavy duty arm and rugged design provides years of productivity.
- Eliminate shovel work for flowerbeds or edging installation.
- Unique blade action, cuts like a sod cutter without throwing debris.
- Easy clean-up.
- Blade outlasts rotary edger blade 20:1.]
- Safer than a rotary edger.

Optional Blades

Right Angle. For edging and installation. For use on flowerbeds and baseball diamonds.
Product # 87104

30° Tree Ring. For flowerbeds, bushes and trees where roots are a consideration. Minimizes root damage.
Product # 87111

V-Trencher. For removal of turf along hard or paved surfaces such as sidewalks, driveways, patios and curbs. Perfect for cutting bed drainage canals.
Product # 87105

Circular. Cuts through overgrowth a rotary edger can't handle. Use for a vertical cut along sidewalks, driveways, patios and curbs.
Product # 87110-Kit, 87107- Blade only

3" Sod Cutter. Cuts a 3-inch strip of sod. Use to install concrete, wood edging and invisible dog wire fence.
Product # 87106
