## Section 3. Composition/Information on Ingredients

The exact composition of this material is a trade secret and contains no other components or impurities which will influence the classification with regard to human and environmental risk assessment.

## Section 4. First Aid Measures

**Eye Contact:** Immediately flush eyes with water for at least 15 minutes.  
**Skin Contact:** Wash with soap and water. If irritation develops seek medical attention.  
**Inhalation:** Move to fresh air. Seek medical attention if irritation develops.  
**Ingestion:** Seek medical attention.

## Section 5. Fire Fighting Measures

**Flammability of Product:** Not a fire or explosion hazard.  
**Fire Fighting Media:** Foam, alcohol foam, CO2, dry chemical, water fog.  
**Fire Fighting Precautions and Hazards:** No special equipment needed beyond standard firefighting equipment and procedures.

## Section 6. Accidental Release Measures

**Clean-Up Procedures:** Collect spilled material with an inert absorbent such as sand or vermiculite. Place in properly labeled and closed container. Dispose of collected material according to federal, state/provincial and local environmental regulations.

**Spills and Leaks:** Contain the spill or leak to prevent discharges to surface streams or storm sewers.

## Section 7. Handling and Storage

**Handling:** Avoid breathing mist. General mechanical ventilation can be expected to effectively remove and prevent build up of any vapor or mist generated from handling this product in a closed environment. Protect eyes to prevent contact. Avoid prolonged or repeated exposure to skin.

**Storage:** Store between 5° and 40°C. Do not freeze. Keep container in a dry place. Keep containers sealed until ready for use.

## Section 8. Exposure Control/Personal Protection

### Occupational Exposure Limits

Component	CAS Number	OSHA PEL	ACGIH TLV	Weight Percent
Liquid mixture/dispersion	Proprietary	None established	None established	100%

**Engineering controls:** General mechanical ventilation can be expected to effectively remove and prevent build up of any vapor or mist generated from handling this product in a closed environment.

### Personal Protection:

*Eyes:* Wear safety glasses. Wear additional eye protection such as chemical goggles or face shield if splashing or spraying hazard exists. Have an eye wash station available.

*Body:* To prevent skin contact wear long-sleeved shirt and long pants; shoes plus socks.

*Hands:* Avoid skin contact by using waterproof gloves.

*Respiratory:* No respiratory protection required under normal conditions of use. Use local exhaust to control excessive vapors/mists. If excessive vapors or mists are persist use appropriate NIOSH/MSHA approved organic vapor/mist respirator

**Other:** Open wounds or skin surface disruptions should be covered with a chemical resistant patch to minimize absorption risks. Clean clothing should be worn daily to avoid possible long-term build up of the product leading to chronic overexposure.
